## **Environmental Statement**

Produced with the assistance of Lynch Safety Services Ltd

**ENVIRONMENTAL POLICY STATEMENT**

This policy applies to all areas and operations of Beere Electrical Services Limited's undertakings.

Beere Electrical Services Limited's principal operations are undertaken within the construction industry for various clients. We recognise that our operations interact with the environment and we are firmly committed to eliminating or reducing adverse impacts from our business activities and promote a positive attitude to the conservation and enhancement of all aspects of our environment. Environmental factors will be taken into consideration in our business planning and decision making.

In particular, Beere Electrical Services Limited will achieve this through our commitment to:

- Employing systems and procedures that ensure the Company's compliance with all relevant environmental legislation, regulations and industry best practices;
- Identifying its significant environmental aspects for all activities and put in place control mechanisms to mitigate their affects;
- Minimising the environmental impacts of its activities, prevent pollution and continually improve its environmental performance through setting objectives and targets and developing key performance indicators;
- Promoting sustainable development by conserving energy, materials and resources, minimising consumption, maximising efficiency and effectively managing wastes; reducing waste levels and actively recycling waste materials for re-use;
- Promoting design improvements to clients to enable the projects long term environmental impact to be minimised;
- Considering alternative installation methodologies to minimise the construction phase environmental impact of projects;
- Identifying and managing key risks and having arrangements in place to respond to all foreseeable incidents and emergencies;
- Ensuring that all activities are undertaken with minimal impact on local communities and to not creating a nuisance to our neighbours;
- Involving Employees and Contractors in our environmental programs and provide training to enable them to discharge their responsibilities;
- Managing our supply chain to encourage their participation to minimise the use of materials, energy or processes which may be harmful to the environment;
- Monitoring Environmental issues to review our performance and make recommendations for the future.
- Implementing processes to prevent Environmental non-conformities and to ensure that we are prepared to deal with potential Environmental emergencies.

The participation and co-operation of all employees and contractors is vital to the success of this policy.

This policy will be regularly reviewed and updated to take account of organisational priorities and changes, Environmental Legislation and best practice.

This policy is available to all interested parties upon request.

Signed: .....
